## CHALCROFT TESTIMONIAL

As a school, we have benefitted hugely from Chalcroft's recent collaboration with us. From the initial point of contact (which stemmed from them approaching us directly to offer a Site Safety presentation assembly and competition follow-up), their approach and commitment has been first class.

From the launch assembly (with Ivor Goodsite himself) and the Year Six challenge workshops to the extensive poster competition judging and then from the follow-up assembly (where all entrants were praised and the winning entries discussed in detail) through to the site visit for the winners... it has all been very well organised and executed. The team (and we have interacted with a large number of them) have pitched everything correctly for this age group and accommodated many Stukeley requests and tweaks in the process.

The site visit was an overwhelming highlight – it was carefully organised and gave the children a real insight into the goings on up at Alconbury. To factor this in, despite the enormity and scale of the project, was a particular treat!

A huge thanks to Georgina, Hilary and the team for all their diligence, perseverance and accommodation of us as a school. To link as a community, has been a real pleasure!
